—Release Notes—

This is the first of three books. Hatari Myounguk is comprised of the extra color set added as part of the widespread publication of Hatari Myounguk, and weren't included in the basic version.

Pages 280-284 were skipped, since they simply had an essay written by Seisaku Morita, and virtually had no relation to the manga itself.

(Oh, by the way, one of us makes a cameo in this book. Y'dilly has nothing on us!)

Original Japanese text by Mitsuo Akiuchi. Released by Latin_D.
